Subject Index to Volume 201 (January–June 1985)

A

Abdomen
  disease in Hodgkin's lymphoma, prediction of, 465
  stoma site hernias of, prosthetic repair in, 344
  trauma of
    evaluation of antibiotics in, 576
    and splenectomy compared to splenorrhaphy, 568
Abdominal wall defects
  comparison of prosthetic materials for, 705
  and ventral hernia repair, 347
Acid clearance test, in analysis of esophageal function, 728
Adenoma, adrenocortical, and Cushing's syndrome, 586
Adrenal gland
  autotransplants in Cushing's disease, 595
  tumors with Cushing's syndrome, 587
Air embolism, cerebral, hyperbaric oxygen in, 242
Airway complications, from intubation in burns, 374
Alcohol use
  and pigment gallstones in cirrhosis, 319
  and recurrent pancreatitis prevention, 684
  trauma related to, 194
Allopurinol, and survival of island skin flaps, 357
Amikacin levels, after pleural or peritoneal irrigation, 333
Androgen receptors in breast cancer, and response to therapy, 305
Anemia, after gastric exclusion for obesity, 186
Aneurysms, abdominal aortic, and coronary artery disease, 758
Animal studies
  insulin-deficient diabetes in monkeys, 27
  isolation-perfusion of liver with 5-fluorouracil, 337
  Kupffer cell modulation of hepatocytes, 87, 429, 436
  pentagastrin and epidermal growth factor preventing stress ulcers, 290
  prosthetic materials of abdominal wall reconstruction, 705
  release of secretin immunoreactivity from ileum, 300
  superoxide dismutase and allopurinol affecting skin flap survival, 357
  wound healing in stapled or sewn closure of colotomies, 360
Annals of Surgery, history of, 1
Antibiotics
  in abdominal trauma, evaluation of, 576
  amikacin in serum after pleural or peritoneal irrigation, 333
  and coagulation in abdominal sepsis, 96
Antidiuretic hormone, and postoperative urinary volume, 383
Antisepsis
  and advances in wound repair, 268
  development of, 423
Aortic aneurysms, abdominal, and coronary artery disease, 758
Appendicitis, in mature patients, 695
Ascites, intractable, LeVeen shunt in, 488
Aspartate aminotransferase levels, in acute pancreatitis with gallstones, 68
Aspirin, and thrombosis prevention in carotid reconstructive surgery, 765
Atherosclerosis, patterns of, 115
Axillary lymph nodes, in breast cancer, 311
Axonal necrosis, in Crohn's disease, 53
Azathioprine, compared to cyclosporine, in renal transplant recipients, 142

B

BCG therapy, affecting tumor infiltrating lymphocytes, 158
Biliary tract
  choledochal injury at cholecystectomy
    causative factors in, 328
    reoperations for, 452
  drainage with nondislodgeable endoprosthesis, 323
  effects of preoperative transhepatic drainage, 545
  palliation of malignant duct obstruction, 554
  reliability of tests for lithiasis, 640
  sphincteroplasty and sphincterotomy in pancreatobiliary surgery, 399
Billroth I gastrectomy, and postoperative gallstones, 315
Billroth II gastrectomy, vagotomy with, preventing recurrent pancreatitis, 684
Biopsy in breast cancer
  in bilateral cancer, 667
  for outpatients, 64
Book reviews, 252
Breast cancer
  axillary lymph nodes in, 311
  bilateral, 667
  locally advanced, treatment of, 604
  multiple steroid receptor determinations in, 305
  outpatient biopsy of, 64
  radiotherapy in, 164
  sarcoma in, 527
  steroid hormone receptors in, multifactorial analysis of, 611
Burns, and adverse effects of ventilatory support, 374

C

Calculi, biliary, reliability of tests for, 640. *See also* Gallstones
Carcinoid syndrome, pentagastrin test in, 81
Carcinoma
  adrenocortical, and Cushing's syndrome, 586
  of breast. *See* Breast cancer
  colorectal, metastatic, hepatic resection in, 204
    factors affecting survival in, 210
  of liver, and hepatic arterial chemotherapy with implantable pump, 560
Carotid artery
  endarterectomy of, and EEG monitoring, 785
  reconstructive surgery of, and role of antiplatelet drugs, 765
Catheterization
  cerebral air embolism from, hyperbaric oxygen in, 242
  pulmonary artery, infections from, 237
Causalgia, management of, 278
Cefamandole, evaluation in abdominal trauma, 576
Cefoxitin, evaluation in abdominal trauma, 576

Cerebral air embolism, hyperbaric oxygen in, 242
Children
  protective antireflux operation with feeding gastrostomy for, 736
  venovenous perfusion for extracorporeal membrane oxygenation in newborn, 520
  ventral hernia in treatment of omphalocele and gastroschisis, 347
Cholangiography, intraoperative, in detection of biliary lithiasis, 640
Cholecystectomy, accidental choledochal lesions from
  causative factors in, 328
  reoperations for, 452
Cholecystography, oral, in detection of biliary lithiasis, 640
Cholecystokinin, in prevention of gallbladder disease from parenteral nutrition, 76
Cholelithiasis. *See* Gallstones
Cirrhosis
  and comparison of shunts for variceal bleeding, 712
  and LeVeen shunt in intractable ascites, 488
  pigment gallstones in, 319
  and prediction of splanchnic-systemic shunt survival, 476
Clindamycin/tobramycin
  and coagulation in abdominal sepsis, 96
  evaluation in abdominal trauma, 576
Coagulation in abdominal sepsis, antibiotics affecting, 96
Colonoscopic polypectomies, 626
Colorectal cancer metastasis to liver
  and hepatic arterial chemotherapy with implantable pump, 560
  resection in, 204
    factors affecting survival in, 210
Computed tomography, to predict abscess in acute pancreatitis, 656
Coronary artery disease
  and abdominal aortic aneurysms, 758
  and bypass grafting in women, 780
Cost of health care, sources of funds in, 132
Crohn's disease
  axonal necrosis in, 53
  early postoperative complications in, 494
Cushing's syndrome
  adrenal autotransplants in, 595
  adrenocortical tumors in, 586
Cyclosporine
  compared to azathioprine, in renal transplant recipients, 142
  and late rejection of renal transplants, 444

D

Decompression
  biliary
    in obstruction from malignancies, 554
    preoperative percutaneous, 545
  gastrointestinal
    and elimination of postoperative nasogastric tubes, 233
    and gastrostomy complications, 180
Diabetes, insulin-deficient, in monkeys, 27

E

Editorial, 231
Electroencephalographic monitoring, in carotid endarterectomy, 785
Electron microscopy of Crohn's disease, 53
Embolism
  air, cerebral, hyperbaric oxygen in, 242
  pulmonary, recurrent, embolectomy in, 11
Endoscopy, in colonic polypectomies, 626
Endotoxin, and Kupffer cells affecting hepatocytes function, 87
Epidermal growth factor, preventing stress ulcers, 290
Esophagitis
  reoperations after failed procedures in, 723
  in spontaneous enterogastric reflux, 170
Esophagus, analysis of emptying in gastroesophageal reflux, 728
Estrogen receptors in breast cancer
  multifactorial analysis of, 611
  and response to therapy, 305
Ethics, and care of critically ill patients (*Letters*), 534
Extracorporeal circulation, history of, 263

F

Fluid replacement
  mannitol with, after renal transplantation, 246
  in shock, 410
5-Fluorouracil
  intraperitoneal, in hepatic resection of colorectal metastases, 210
  in isolation-perfusion of liver, 337
Fundoplication, affecting gastric emptying, 296

G

Gallbladder
  disease from parenteral nutrition, prophylaxis of, 76
  motility affected by neurotensin, 678
Gallstones
  in acute pancreatitis, biochemical studies of, 68
  after antrectomy and gastroduodenostomy, 315
  pigment, in cirrhosis, 319
  reliability of tests for, 640
Gangrene, venous, of upper extremity, 511
Gastrectomy
  Billroth I, and postoperative gallstones, 315
  Billroth II, vagotomy with, preventing recurrent pancreatitis, 684
Gastric inhibitory polypeptide, response to glucose in obesity, 630
Gastritis, in spontaneous enterogastric reflux, 170
Gastroduodenostomy, and postoperative gallstones, 315
Gastroesophageal reflux
  and analysis of esophageal emptying, 728
  and protective antireflux operation in children with feeding gastrostomy, 736
  and reoperations for esophagitis, 723
Gastrointestinal tract
  anemia after gastric exclusion in obesity, 186
  antiulcer effects of pentagastrin and epidermal growth factor, 290
  axonal necrosis in Crohn's disease, 53
  blunt intestinal trauma, 198
  colonoscopic polypectomies, 626
  complications from tube gastrostomy, 180
  early postoperative complications in Crohn's disease, 494
  elimination of postoperative nasogastric decompression, 233

evaluation of Proximate ILS circular stapler, 108
fundoplication affecting gastric emptying, 296
hepatic resection in metastatic colorectal cancer, 204, 210
motility of small intestine after proctocolectomy, 351
prognosis of gastric outlet obstruction, 176
radiation injury of, surgery in, 470
release of secretin immunoreactivity from ileum, 300
spontaneous enterogastric reflux gastritis and esophagitis, 170
ulcers of. *See* Ulcers, peptic
wound healing in stapled or sewn closure of colotomies, 360
Gastroschisis, and ventral hernia repair, 347
Gastrostomy, tube
complications from, 180
and protective antireflux operation for children, 736
Glucose metabolism, in obesity, 690

H

H-graft interposition shunt in variceal bleeding, compared to selective shunt, 652
Hand gangrene, in venous ischemia, 511
Healing of wounds
and developments in surgery, 268
in stapled or sewn closure of colotomies, 360
Health care
controllable costs in, 132
ethical factors in (*Letters*), 534
specialization affecting, 537
Heart
coronary artery bypass grafting in women, 780
coronary artery disease and abdominal aortic aneurysms, 758
history of extracorporeal circulation, 263
Hernia
parastomal, prosthetic mesh repair in, 344
ventral, in treatment of omphalocele and gastroschisis, 347
Historical aspects
of *Annals of Surgery*, 1
of causalgia management, 278
of extracorporeal circulation, 263
of health care, 537
of wound repair and healing, 268
Hodgkin's lymphoma, prediction of abdominal disease in, 465
Humanistic achievement in physicians (*Editorial*), 231
Hyperparathyroidism, reoperation for, 40
Hypertension
neurogenic, in pulsatile compression of medulla, 391
renovascular, long-term results of surgery in, 219

I

Ileoanal anastomosis with proctocolectomy, intestinal motility after, 351
Ileum, secretin immunoreactivity released from, 300
Iliac artery, external, emergency ligation of, 505
Immunity, postburn impaired cell-mediated, 793
Immunodiagnosis of malignancies, 415
Immunology of tumor infiltrating lymphocytes, 158
Immunosuppressive agents, trials in renal transplant recipients, 142
Infections
and advances in wound repair, 268
antibiotics in. *See* Antibiotics
and coagulation in abdominal sepsis treated with antibiotics, 96
and comparison of prosthetic materials for abdominal wall reconstruction, 705
control of, and development of surgery, 423
from pulmonary artery catheter, 237
and septic shock, 411
in thoracic trauma, 622
Inhalation injury, and adverse effects of ventilatory support, 374
Intestines. *See* Gastrointestinal tract
Intubation, tracheal, in burns, adverse effects of, 374
Irrigation, pleural or peritoneal, and amikacin levels in serum, 333
Ischemia, venous, and gangrene of upper extremity, 511

J

Jaundice, obstructive
and biliary tract drainage with nondislodgeable endoprosthesis, 323
and effects of preoperative transhepatic drainage, 545
and palliation of malignant duct obstruction, 554

K

Ketanserin, and pentagastrin test of carcinoid syndrome, 81
Kidney
long-term results of surgery in renovascular hypertension, 219
transplantation of
and emergency ligation of external iliac artery, 505
late rejection after cyclosporine, 444
and prevention of acute tubular necrosis, 246
trial of immunosuppressive agents in, 142
Klippel-Trénaunay syndrome, 365
Kupffer cells modulating hepatocyte protein synthesis
monokine role in, 436
and multiple systems organ failure, 87
soluble factors in, 429

L

Laparatomy, staging, in Hodgkin's lymphoma, 465
Letters to the editor, 533
LeVeen shunt, in intractable ascites, 488
Lithiasis, biliary, reliability of tests for, 640. *See also* Gallstones
Liver. *See also* Cirrhosis
chronic disease of, and prediction of splanchnic-systemic shunt survival, 476
effects of preoperative transhepatic drainage, 545
isolation-perfusion with 5-fluorouracil, 337
Kupffer cells modulating hepatocyte protein synthesis
monokine role in, 436
and multiple systems organ failure, 87
soluble factors in, 429
LeVeen shunt in intractable ascites, 488
malignancies treated with arterial infusion using implantable pump, 560
pigment gallstones in cirrhosis, 319
resection in metastatic colorectal cancer, 204
factors affecting survival in, 210
Lung cancer, tumor infiltration lymphocytes in, 158

Lymph nodes, axillary, in breast cancer, 311
Lymphocytes, infiltrating pulmonary tumors, 158
Lymphoma, Hodgkin's, prediction of abdominal disease in, 465

M

Mannitol, with fluid replacement after renal transplantation, 246
Medical school admission, and predictors of clinical performance, 225
Medulla oblongata, arterial compression of, hypertension in, 391
Melanoma
  extent of excision in (*Letters*), 533
  prognosis in Stage II, 103
  regression in thin lesions, and prognosis, 499
Metabolism
  disorders in obesity, 630
  in shock, 413
  thyroid
    in cachexia, 45
    postoperative, 456
Moxalactam, and coagulation in abdominal sepsis, 96
Myasthenia gravis, thymectomy in, 618

N

Nasogastric decompression, postoperative, elimination of, 233
Nerves, axonal necrosis in Crohn's disease, 53
Neurotensin, and gallbladder motility, 678
Nutrition
  cachexia affecting thyroid hormone metabolism, 45
  parenteral, and prophylaxis of gallbladder disease, 76
  in postoperative anemia after gastric exclusion, 186

O

Obesity
  hormone profile in, 690
  and postoperative anemia after gastric exclusion, 186
Omphalocele, and ventral hernia repair, 347
Oxygen
  free radicals of
    and pathogenesis of acute pancreatitis, 633
    and skin flap survival, 357
  hyperbaric, in cerebral air embolism, 242

P

Pain, and causalgia management, 278
Pancreas
  islet hormone response to glucose in obesity, 690
  rupture of pseudocysts (*Letters*), 534
  surgery of
    and postprandial secretin response, 447
    sphincteroplasty and sphincterotomy in, 399
Pancreatic polypeptide, and pathogenesis of obesity, 630
Pancreatitis, acute
  and computed tomography to predict abscess, 656
  gallstones with, biochemical studies of, 68
  pathogenesis of, 633
  vagotomy and Billroth II gastrectomy preventing recurrences of, 684
Pentagastrin
  preventing stress ulcers, 290
  in test for carcinoid syndrome, 81
Peritoneal cavity irrigation, and amikacin levels in serum, 333
Peritonitis, and comparison of prosthetic materials for abdominal wall reconstruction, 645
Physicians
  specialization affecting health care, 537
  superior, qualities of, 225
  value judgments about (Editorial), 231
Pigment gallstones, in cirrhosis, 319
Pilcher, Lewis Stephen, 1, 5
Platelet-induced thrombosis, prevention in carotid reconstructive surgery, 765
Pleural cavity irrigation, and amikacin levels in serum, 333
Polypectomy, colonoscopic, 626
Polypropylene mesh, compared to polytetrafluoroethylene, for abdominal wall reconstruction, 645
Presidential Address, 537
Proctocolectomy, motility of small intestine after, 351
Progesterone receptors in breast cancer
  multifactorial analysis of, 611
  and response to therapy, 305
Prosthetic materials
  in abdominal wall reconstruction, comparison of, 705
  mesh repair of paraostomy hernias, 344
  in ventral hernia repair with omphalocele and gastroschisis, 347
Protein synthesis by hepatocytes modulated by Kupffer cells
  monokine role in, 436
  and multiple systems organ failure, 87
  soluble factors in, 429
Prothrombin time in abdominal sepsis, antibiotics affecting, 96
Proximate ILS circular stapler, 108
Pseudocysts, pancreatic, rupture of (*Letters*), 534
Pulmonary artery catheter infections, 237
Pulmonary embolism, chronic, embolectomy in, 11
Pump implantation, for hepatic arterial chemotherapy in malignancies, 560

R

Radioisotope swallow, in analysis of esophageal emptying, 728
Radionuclide imaging, in detection of biliary lithiasis, 640
Radiotherapy
  in breast cancer, 164
    and mastectomy in locally advanced tumors, 604
  intestinal injury from, surgery in, 470
Reflex dystrophies, management of, 278
Reflux
  enterogastric, spontaneous, 170
  gastroesophageal
    and analysis of esophageal emptying, 728
    and fundoplication affecting gastric emptying, 296
    and protective antireflux operation in children with feeding gastrostomy, 736
    and reoperations for esophagitis, 723
Respiratory failure in newborn, and venovenous perfusion for extracorporeal membrane oxygenation, 520

S

Saphenous vein graft, in nonreversed *in situ* configuration, 771
Sarcoma of breast, 527
Scintiscanning, in detection of biliary lithiasis, 640
Secretin
  immunoreactivity released from ileum, 300
  postprandial response after gastric or pancreatic surgery, 447
Serotonin levels in carcinoid syndrome, pentagastrin affecting, 81
Shock, 407
  fluid replacement in, 410
  hemodynamic monitoring in, 408
  host resistance in, 412
  hypovolemia in, 408
  lung function in, 411
  metabolic defects in, 413
  septic, 411
  team approach in, 407
Shunt surgery
  LeVeen shunt in intractable ascites, 488
  selective and nonselective shunts in variceal bleeding, 712
  splanchnic–systemic, factors affecting survival of, 476
Skin flap survival, superoxide dismutase and allopurinol affecting, 357
Somatostatin
  and pathogenesis of obesity, 630
  and ulcer prevention by pentagastrin and epidermal growth factor, 290
Specialization, affecting health care, 537
Sphincteroplasty, transduodenal, experience with, 399
Splenectomy, compared to splenorrhaphy, 568
Splenorenal shunt, distal, in variceal bleeding, compared to nonselective shunt, 652
Splenorrhaphy, compared to splenectomy, 568
Stapling techniques
  and evaluation of Proximate ILS circular stapler, 108
  and wound healing in stapled or sewn closure of colotomies, 360
Stoma site hernias, prosthetic mesh repair in, 344
Stomach
  antiulcer activity of pentagastrin and epidermal growth factor, 290
  emptying rate after fundoplication, 296
  exclusion surgery in obesity, and postoperative anemia, 186
  management of gastric ulcers, 741
  outlet obstruction with peptic ulcers, 176
  surgery of, and postprandial secretin response, 447
Stress ulcer prevention by pentagastrin and epidermal growth factor, 290
Substance P levels in carcinoid syndrome, pentagastrin affecting, 81
Superoxide dismutase, and survival of island skin flaps, 357
Swan-Ganz pulmonary artery catheter, infections from, 237
Sympathectomy, in causalgia and reflex dystrophies, 278
Sympathetic nerve necrosis in Crohn's disease, 53

T

Thoracic trauma, infections in, 752
Thrombosis prevention, in carotid reconstructive surgery, 765
Thymectomy, in myasthenia gravis, 618
Thyroid gland
  hormone metabolism in cancer cachexia, 45
  postoperative function studies, 456
Tobramycin/clindamycin
  and coagulation in abdominal sepsis, 96
  evaluation in abdominal trauma, 576
Tracheal intubation in burns, adverse effects of, 374
Tracheostomy in burns, adverse effects of, 374
Transplantations
  adrenal autotransplants in Cushing's disease, 595
  renal. *See* Kidney, transplantation of
  selective approach to, 255
Trauma
  abdominal
    and evaluation of antibiotics, 576
    and splenectomy compared to splenorrhaphy, 568
  alcohol-related, 194
  intestinal, blunt, 198
  thoracic, infections in, 752
Tube gastrostomy
  complications of, 180
  and protective antireflux operation for children, 676
Tumors. *See also* Carcinoma; Melanoma
  adrenal, and Cushing's syndrome, 586
  cachexia with, and thyroid hormone metabolism, 45
  hepatic arterial chemotherapy with implantable pump, 560
  hepatic resection of colorectal metastases, 204
    factors affecting survival in, 210
  immunodiagnosis of malignancies, 415
  infiltration by lymphocytes, 158
  palliation of biliary obstruction from malignancies, 554
  sarcoma of breast, 527

U

Ulcers, peptic
  current methods of management, 741
  and gallstones after antrectomy and gastroduodenostomy, 315
  gastric outlet obstruction with, 176
  postoperative, transthoracic vagotomy in, 648
  prevention by pentagastrin and epidermal growth factor, 290
Ultrasonography, in detection of biliary lithiasis, 640
Urinary volume, postoperative, vasopressin affecting, 383

V

Vagotomy
  and Billroth II gastrectomy, preventing recurrent pancreatitis, 684
  with gastric resection in ulcers, and postoperative gallstones, 315
  transthoracic, for postoperative peptic ulcer, 648
Variceal bleeding, selective and nonselective shunts in, 712
Vasculature
  antiplatelet drugs in carotid reconstructive surgery, 765
  carotid endarterectomy with EEG monitoring, 785
  cerebral air embolism treatment with hyperbaric oxygen, 242
  coronary artery bypass grafting in women, 780
  coronary artery disease and abdominal aortic aneurysms, 758

embolectomy in chronic pulmonary embolism, 11
emergency ligation of external iliac artery, 505
hepatic arterial chemotherapy with implantable pump, 560
hypertension from arterial compression of medulla, 391
in Klippel-Trénaunay syndrome, 365
long-term results of surgery in renovascular hypertension, 219
nonreversed and *in situ* vein grafts, 771
patterns of atherosclerosis, 115
pulmonary artery catheter infections, 237
venous gangrene of upper extremity, 511
venovenous perfusion for extracorporeal membrane oxygenation in newborn, 520
Vasopressin, and postoperative urinary volume, 383
Vein grafts, nonreversed and *in situ*, 771
Venous gangrene of upper extremity, 511
Venovenous perfusion, for extracorporeal membrane oxygenation in newborn, 520
Ventilatory support in burns, adverse effects of, 374
Vitamin K deficiency, and coagulation in abdominal sepsis treated with antibiotics, 96

W

Wound healing
and developments in surgery, 268
in stapled or sewn closure of colotomies, 360

X

Xanthine oxidase, and pathogenesis of acute pancreatitis, 633
